

Tip Sheet

DESKTOP ICON LOGIN - EXPORT RESULTS FROM HYPERSPACE

Users logging into Hyperspace from a desktop icon (not VMWare) should use this tip sheet to export to Excel. End users with Advanced level security (e.g. Quality, Managers, Supervisors, and above) have access to export Reporting Workbench and SlicerDicer Detail Table results from Hyperspace.

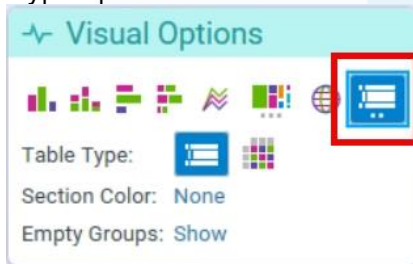

Export from Hyperspace

Workbench Reports

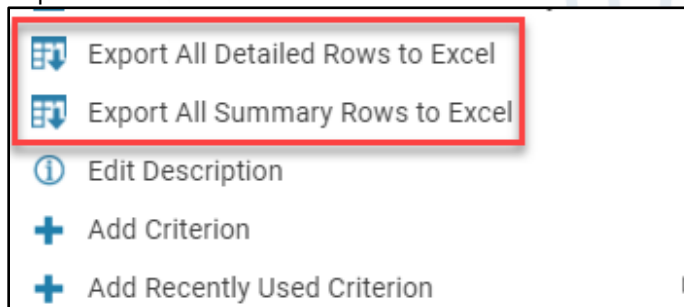

1. From a report's results, click  >  **Export Results**.
2. Click **Browse**.
3. **Select** a folder from your **AdventHealth-OneDrive**.
4. Click **Save**.
5. Add a file password.
6. Click **Accept**.

SlicerDicer

1. In the Visual Options box, select the Detail Table icon. This is the only view with access to export from Hyperspace.

2. **Right click** on one of the detail table rows. ***Note:** Unlike Workbench, do not click the Options  button to export from SlicerDicer.

3. Export All Detailed Rows or All Summary Rows to Excel.
4. Create a password for the file. Click **Continue**.
***Note:** There may be a long pause while SlicerDicer runs the full query. There is no Progress Icon on display while the query runs.
5. The File Explorer window appears.
6. **Select** a folder from your **AdventHealth-OneDrive**.
7. Click **Save**.
